DEPARTMENT OF DEFENSE
PRIME CONTRACT AWARDS IN LABOR SURPLUS AREA

Fiscal Year 1980

BACKGROUND

This report presents the distribution of defense prime contract awards over \$10,000 in Labor Surplus Areas (LSA) for fiscal year 1980. These data include DoD prime contracts over \$10,000 awarded to U. S. business firms, educational and nonprofit institutions, and Government agencies, including Foreign Military Sales located in those areas designated labor surplus by the U. S. Department of Labor.

The U. S. Department of Labor has the responsibility for defining LSA's and for establishing eligibility criteria. The eligible areas are contained in their quarterly publication "Area Trends in Employment and Unemployment."

Prior to January 1, 1978, an area's eligibility was based on a fixed cutoff of a local unemployment rate of six percent or more. An area is now classified as labor surplus if its unemployment rate is 1.20 times the national rate. In addition, the eligibility criteria of LSA's include a lower and upper cutoff. All areas must have at least a six percent unemployment rate to qualify and any area with a jobless rate of 10 percent or more will automatically qualify. During fiscal year 1979 the eligibility status of labor surplus areas was determined on an annual basis (rather than quarterly) and will be effective each June 1 and remain in effect for the following twelve months.

Also beginning in January 1978, the Department of Labor modified its definitions of area classifications by eliminating the terms "Areas of Substantial or Persistent Unemployment," "Sections of Concentrated Unemployment or Underemployment," and "Major and Smaller Areas." During fiscal year 1979 the Department of Labor revised the classification criteria for defining labor surplus areas as civil jurisdictions rather than labor market areas.

This report consists of seven tables (three summary and four detail tables showing awards by LSA for fiscal year 1980). Table 1A shows total procurement, total LSA procurement, and total preference awards for fiscal years 1979 and 1980. Table 1B depicts the same data for fiscal years 1975 through 1978. Table 2 presents all LSA awards to U.S. business firms by type of set-aside preference. Table 3 shows all awards, by awarding department in Labor Surplus Areas. Table 4 displays these data as awarded by set-aside preference. Table 5 depicts that portion of Table 3 awarded by combined labor surplus/small business set-aside preference. Table 6 presents total awards in Labor Surplus Areas by tie-bid preference.

HIGHLIGHTS

In fiscal year 1980 defense prime contract awards over \$10,000 in LSA's totaled \$21,344 million or 29.7 percent of total awards compared to 31.1 percent in fiscal year 1979. All set-asides and tie-bid preferences (Table 2) accounted for \$251 million in awards. The following table shows the dollar and percent distribution of awards in LSA's by type of preference.

	FY 1980 Awards (\$000)	Percent of Total	Percent of Preference
TOTAL AWARDS - LSA	\$21,343,801	100.0	-
Preference Awards - Total	251,182	1.2	100.0
Set-Asides	109,996	0.5	43.8
Tie-Bid	37	*	*
Combined SB/LSA	141,149	0.7	56.2

* = Less than .05%

A comparison of the above data to fiscal year 1979 shows that the total preference awards were \$208 million or 1.1 percent of the \$18,988 million total Labor Surplus Area awards. In fiscal year 1980 the total of set-asides and tie-bid preference awards were \$100 million or 0.5 percent of total LSA awards. This compares to \$123 million or 0.6 percent in fiscal year 1979. When comparing the percentage of various types of preference to the total preference awards, we find the percentage of set-asides and tie-bid preference awards to total preference decreased 15 percent from fiscal year 1979 to 1980. The combined small business/LSA set-asides increased from 41 to 56 percent over the fiscal years.

(a) Military and Army Civil Functions prime contract awards.

(b) Prime contract awards of over \$10,000, excluding awards for work outside the United States.

(c) Data includes actions of over \$10,000 for supplies, equipment, services, and construction.

(d) Annual data represent averages of figures reported by the Department of Labor on a monthly basis. Quarterly data are as of the end of the quarter.

(e) These large cities are parts of major areas which, as a whole, are not areas of substantial unemployment.

(f) Sections of concentrated unemployment or underemployment.

(g) Presentation of number of areas and qualifying criteria changed by the Department of Labor in JAN 1978.
